

# CITY MANAGER'S WEEKLY REPORT

- FULLERTON, CALIFORNIA -

## City Manager's Message

September 11, 2020

### Campaign Election Signs

Yep. We all know very well that it is Election season. The City has three Councilmember seats up for election - District 1, District 2, and District 4. There are also two City ballot measures, a proposal for a 1.25% Sales Tax Measure, [Measure S](#): Preserving Community Services, Street Repair, and Emergency Response; and, [Measure U](#): regarding repealing Safe and Sane Firework sales and use.

Campaign signs, otherwise known as temporary non-commercial signs, are allowed for City candidates, measures, and other non-City local elected offices

and measures. There are many myths about such signs, to include they cannot be displayed more than 30 days before an election (not true). The City of Fullerton states the rules for temporary non-commercial signs, which includes campaign signs, in its Temporary Non-commercial Signs regulations in our municipal code. You can find the regulations online at by clicking [here](#).

Key Points of the Temporary Non-commercial Signs regulations include:

- ◆ Fullerton does not allow temporary noncommercial signs on public property, to include utility poles or utility support structures. Temporary non-commercial signs are only allowed on private property and may not constitute a public safety hazard even if displayed on private property (such as impeding line of site for vehicles).
- ◆ Fullerton has no specific date for campaigns to begin posting signs or a deadline to remove signs.
- ◆ The Public Works Department will remove signs from public property. Signs posted in medians, posing a safety hazard or referred by citizen complaint will receive priority for removal. The Orange County Flood Control District removes signs on their property and fences.
- ◆ The Public Works Department will store campaign signs they remove at the Public Works Yard (Yard) for 30 days. Campaigns may collect their signs from the Yard during regular business hours.

I'm ready to cuddle up with my new bestie today. Purr-ty please call 714-935-6848 to make an appointment to adopt me!

## Hot Weather Pet Safety Tips

### Never Leave Your Pet in the Car

Never leave your pet alone in a vehicle, even with the windows cracked; it only takes a few minutes for the temperature inside to reach 160 degrees. If you see an animal in a hot car, try to locate the owner or call 911!

### Watch out for Hot Pavement

Don't leave your pet standing on the hot pavement and keep walks to a minimum. Remember, if it's too hot for bare feet, it's too hot for bare paws!

### Always Provide Water & Shade

Bring your pet inside during the hot day and let them rest in a cool part of the house. Be sensitive to the needs of older, obese or short nosed dogs who are less tolerant of the heat and should be kept indoors in air-conditioning as much as possible.

### Limit Exercise

Limit dog walks and exercise on hot days. Don't let playful pets overexert themselves in extremely warm weather. Exercise in the early morning and late evening to avoid the heat.

### Watch for Signs of Heatstroke

Excessive panting, excessive drooling, high heart rate, discolored gums, mobility problems, high body temperature, vomiting and diarrhea. If your pet is experiencing these symptoms, contact your vet immediately!

## ENERGY-SAVING TIPS FOR A SOCIALLY DISTANCED SUMMER

### MAKE EFFICIENT USE OF ELECTRONICS

- **Keep your electronics' "vampire" side in check.** A vampire load is the power used by plugged-in electronics even when they are turned off, which can add **up to \$200 in yearly** energy costs for the average home. Unplug your devices when they're not in use or charging.
- **Be an efficient gamer.** Did you know that video game consoles can use up to 20 times more energy for streaming than a smart TV? Make sure to turn your console off when not in use.
- **Investigate your computer's energy rating.** Laptops use significantly less energy than desktop computers, and if you're considering a home office upgrade, remember that ENERGY STAR® computers use up to **65% less energy**.
- **Use your printer wisely.** When you do have to print, keep in mind that ink jet printers use **less energy** than laser models, and make sure your printer is going into sleep mode when not in use.

### START A PROJECT

- **Seal the deal.** Did you know that if you add up all the gaps around the windows and doors in an average U.S. house, you'd have the equivalent of a **3-foot by 3-foot** hole in the wall? Check out a **list** from the U.S. Department of Energy on common problem spots where cool air escapes.
- **Keep it light.** Energy-efficient LED lightbulbs can use up to **80% less energy** than traditional incandescent bulbs, resulting in cost savings of around \$75 a year.
- **Dial it down.** Your water heater is easily forgotten, especially in the summer months, but even in a dark basement corner, it's using up energy. Some thermostats are **automatically set** to 140°F even though most households only require them at 120°F.

## Water Repair & Water Quality

On September 2, the Water Construction Division responded to a water main break at 2242 Root Street. The crew made the necessary repairs by using an 8" by 10" repair clamp on the existing ductile iron pipe. The residents were notified for the water to be shut down at 1pm and the water was restored back in service at 7pm. The crew left the site secured with barricades and caution tape for the Street Division to lay hot asphalt.

### Water Quality Specialist

The Water Quality Specialist monitors routine and main break bacteriological results and takes action if a positive sample is detected. Per California regulation, water services that present a hazard to the water supply are required to have a backflow prevention device to prevent polluted or contaminated water from entering the potable water system. These devices must be tested yearly to ensure they are in working order. The Water Quality Specialist is also responsible for water conservation complaints and assists in responding to billing disputes.

## Discover Fullerton, Feed Fullerton & Cooling Center

The Community Center's newest program to keep seniors and others active is now up and running (or walking.) **Fullerton on Foot** is a monthly guided walking tour of interesting sites around town, hosted by knowledgeable Parks and Rec staff and posted on the Community Center's YouTube Channel. The second tour, **New Deal Fullerton will be available on August 21<sup>st</sup>**. By the time the decade was over, Fullerton, along with hundreds of towns and cities across the land, was fundamentally transformed by programs from Franklin Delano Roosevelt's "New Deal." On this 30 minute walk, we'll visit several of Fullerton's notable WPA (Works Progress Administration) projects, and learn how Fullertonians pulled together to help each other during the roughest times. Check our website for more information and the link to register: <http://fullertoncommunitycenter.com/discoverfullerton/>

## Watch Now! OnLine Holds Are Available For Curbside Pick-Up!

You can now place holds directly in our [catalog](#)! Check out our new video tutorial above. (Click on it!)

Here's how it works: When you place items on hold, library employees will pull the available items from the shelves and process them for pickup. Once the hold becomes available, you will receive an automated notification by email or phone that the items are ready. You can also check your holds status online via your account at [www.fullertonlibrary.org](http://www.fullertonlibrary.org) under the "Holds" tab in "My Account."

Once you have been notified that your items are ready, call the library Monday through Friday from 11:00 a.m. to 4:00 p.m. at (714) 738-6333 to make an appointment to pick them up. You will have 14 days from the time of notice to pick up your materials. (If you can't call, send us an email at [info@fullertonlibrary.org](mailto:info@fullertonlibrary.org).)

Due to high demand, the library requires a minimum of two to three full business days to process requests. (During this time there may also be a slight delay in our ability to reach out to you by email or phone.) We ask you to be patient as we work hard to fulfill your requests while taking extra precautions, including quarantining returned books for 96 hours, to ensure your safety.

Returns are not accepted during curbside pickup. To return your items, please use the outdoor book drop between Monday at 9:00 a.m. and Friday at 4:00 p.m.

## Looking Northeast on Spadra, 1912

Looking northeast on Spadra (now Harbor) Road, this photo shows Fullerton residents celebrating Founders' Day in May 1912. On the far right is the St. George Hotel. The Amerige Brothers completed their "Tourist Hotel" in 1888 for \$54,000. After changing names, and ownership, several times, it was razed in 1918 to make way for the business block that still stands today. The small wooden building on the east side of the street is the Amerige Brothers Real Estate Office. The

town's first commercial structure has been moved many times, but now sits in Amerige Park. The building was restored in 2013 and identified as a California Point of Historical Interest in 2016.

### Early Fullerton History

In 1963, Del-Fi Recording artist Ron Holden, famous for his hit single, "Love You So" ([remember here](#)) was in town to perform at the first Teen Fair. The weekend-long festival, hosted by the new Orange-fair Shopping Center included carnival rides, games, and musical performances.
